

GLOBAL PARTNER SERVE TEAM (GPS)

Our Global Partner Serve Team invests in the vitality of our partners by helping to meet their physical, spiritual and emotional needs

Whether serving outside the USA borders or in our own backyard, missionaries need care just like other members of the community. Because they serve on the “front lines” of spiritual battlefields, they are special targets of the enemy. Many wrestle with personal, family, ministry and government issues that are often more complex in an international context. While those serving with ministries in the USA may have a different set of problems, it still puts them on the front lines for attacks and other issues.

Just as our military needs the support of those “on the home front,” so do our partners. Soldiers are dependent upon an extensive network of people involved in logistics, communication, and a plethora of critical functions. They cannot do their job effectively without a powerful network and support system. THIS is where our GPS Team comes in!

PRAYER – vital for the warfare we’re all involved in! **Knees Needed**

CONNECT – we are wired for relationships and shrivel without them. **Plug In**

ENCOURAGE – who doesn’t need encouragement? **Be a Barnabas**

CHILDREN – the children and teens have unique needs; include them. **Family Ties**

RESOURCES – find out what they need and help them find the sources. **Be Creative**

HOME ASSIGNMENT – a time when we are actually with our Partners. **Go Deeper**

The above are just a few of the ways we walk alongside our partners. Each person is different in their gifting and talents; use what God has given you to minister. Giving them **a heart that cares, an ear that listens, and time to give** is vital for a healthy partnership.

THE GPS TEAM MEETS QUARTERLY

To become involved or obtain more information about our Missionary Partners, please contact:

Harold Britton // haroldbritton@gmail.com

An army without supplies and transportation is an army that will soon be surrounded, defeated, and destroyed. A missionary without a network of support is a missionary who cannot long survive. They serve together for his glory and his name.
